PARTNERSHIP & CONTINUITY

Defined roles. Accountable clinical relationships.

Areas for collaboration

Local ENT services, specialist referral, clinical case discussion, medical education and community access. The scope is agreed individually with each participating organisation.

Establishing the arrangement

Review local need, qualified staffing, facilities and clinical scope. Agree referral contacts, consent and record handling, follow-up responsibilities and the operational terms before announcing a new service.

Connected organisations

Santosh Advanced ENT Healthcare: clinical care.
Santosh Cancer Foundation: community support and care navigation.
GeNext MedEd Foundation: medical education and educational publishing.
GeNext Connect: digital platforms and technology development.

Clinical referrals

Contact the receiving service before transferring records. Prepare the referral question, relevant clinical information and dated reports. Confirm receipt and follow-up arrangements.
